EDUCATION

University of Illinois Urbana-Champaign

Master of Science in Computer Science

Online

Aug 2025 - Dec 2027

University of Central Florida

Bachelor of Science in Computer Science

Orlando, FL

Dec 2023

EXPERIENCE

Software Engineer II

GEICO — Data Engineering

Jul 2025 – Present

Remote

- Architected and scaled a **high-throughput, distributed data ingestion microservice** that streams data from **Azure Service Bus** topics into **CosmosDB** and **Snowflake**, onboarding **33 enterprise data sources** and reliably processing **30M+ messages/day**.
- Owned **scalability and performance engineering**, designing adaptive batching, concurrency controls, and backpressure handling to support **variable load patterns** while maintaining low latency and high throughput.
- Built a **data observability platform** and developed a **health engine** that evaluates pipeline and data product health using lineage-aware checks, enabling real-time visibility into failures impacting **PowerBI and downstream analytics systems**.
- Implemented **proactive failure detection and impact analysis**, allowing teams to quickly identify upstream issues and reduce incident resolution time across critical data pipelines.

Software Engineer I

GEICO — Data Engineering

Mar 2024 – Jul 2025

Remote

- Led the development of a **fault-tolerant data retention platform** aligned with **NYDFS compliance**, using **Go, Docker, and workflow orchestration** to automate large-scale policy-based data deletion, reducing audit risk by **75%** and projected storage costs by **40%**.
- Delivered a **cost-saving platform migration** by replacing a legacy translation system with a custom Go service, eliminating a **\$150K vendor dependency**.
- Selected as a **TDP Peer Mentor**, guiding new engineers and improving onboarding effectiveness, contributing to a **90%+ satisfaction rate**.

Software Engineer

Wizard Studios LLC

Jan 2021 – Mar 2024

North Palm Beach, FL

- Delivered **8+ full-stack projects** including e-commerce platforms and ordering systems, improving client operational efficiency and digital presence.
- Collaborated within a **cross-functional team of 6**, driving end-to-end development from requirements to deployment.

TECHNICAL SKILLS

Languages: Go, Java, JavaScript, Python, C, SQL, PHP

Technologies: Cloud Computing, Dockerized Infrastructure, Web APIs, Full-Stack Development, DevOps, Databases (SQL and NoSQL)

Frameworks: Gin, React, Express, Spring, Next.js, React Native, OTEL

Developer Tools: Git, Docker, Kubernetes, Terraform, Apache Kafka, CI/CD, AWS, Azure, Maven, Jira, ArgoCD, Grafana

CERTIFICATIONS AND AWARDS

AWS Certified Cloud Practitioner: Demonstrated expertise in cloud computing fundamentals.

TestOut CyberDefense Pro Certification: Validated skills in cybersecurity practices.

Florida Academic Scholars Award: Awarded complete education funding toward degree completion.
